[linkedin.com/in/rickeevang](https://www.linkedin.com/in/rickeevang) | [rickee.dev](https://rickee.dev)

## OBJECTIVE

---

Software engineering student seeking a job or internship. Open to part-time or full-time work. Classes are both online & asynchronous and will not interfere with any potential work hours. Have a flexible schedule and reliable transportation.

## TECHNICAL SKILLS

---

**Languages:** JavaScript, Python  
**Frontend:** React, HTML, CSS  
**Backend:** Node.js, Express  
**Tools & Libraries:** Git, Vite, React Router

## WORK EXPERIENCE

---

### Seasonal Food Service Worker

*August 28, 2023 – November 3, 2023*

Baseline Emergency Solutions, Sacramento, CA

- Prepared and packaged food for firefighters and other emergency first responders during the peak of the wildfire season.

### Facilities Maintenance Technician

*August 2, 2022 – February 22, 2023*

Markstein Beverage Company, Sacramento, CA

- Operated forklifts, electric pallet jacks, floor scrubbers, and baler machines to complete tasks in and around the facility.

## PERSONAL PROJECTS

---

**Rendezvous** | GitHub: [rickeev/rendezvous-map](https://github.com/rickeev/rendezvous-map) | Live Demo: [rickee.dev/rendezvous-demo](https://rickee.dev/rendezvous-demo)

- A map-based web application using Google Maps Platform APIs that calculates the midpoint between two addresses and suggests nearby open restaurants within a 1-mile radius
- Integrated Maps Geocoding API to convert addresses into geographic coordinates
- Queried Places API to fetch real-time open places near the midpoint

**Sports Mascot Database** | GitHub: [rickeev/mascot-search](https://github.com/rickeev/mascot-search) | Live Demo: [rickee.dev/mascot-search](https://rickee.dev/mascot-search)

- A web application allowing users to search through a database of sports mascots
- Built search functionality with custom React hooks that include typing delays and loading indicators
- Added infinite scroll feature with the Intersection Observer API for smooth mascot data loading

## EDUCATION

---

Bachelor of Science in Software Engineering, Western Governors University

*Expected: May 2027*
